“Looking for the Very Best of the Best Seasoned Top-Performers who are Highly Ethical for In-Home Installations”

We are looking for a hard-working, dedicated HVAC Technician to join our growing staff. The individual in this role will be responsible for installing, inspecting, and fixing our customers’ heating, cooling, and ventilation systems. Candidates should have extensive experience handling, installing, and fixing HVAC equipment, and be comfortable working independently.

HVAC Technician Duties and Responsibilities

Travel to homes and businesses on a daily basis as scheduled

Install new heating, cooling, and ventilation systems

Inspect current HVAC systems for effectiveness and safety

Perform preventative maintenance on HVAC systems to increase longevity

Conduct performance tests with specialized tools

Troubleshoot current HVAC system issues

Repair damaged HVAC systems

Maintain accurate inventory of all equipment and HVAC resources

HVAC Technician Requirements and Qualifications

-10-years of hands on field experience a must

-Certification through the Environmental Protection Agency to handle refrigerants required

-Certification or associate’s degree from a registered HVAC program required

-Must hold state HVAC technician license

-Strong verbal communication skills, ability to explain complex HVAC issues with customers in a way they understand

-Critical-thinker, problem-solver

-Must have valid driver’s license

-Must be punctual and adhere to a daily schedule with multiple appointments in different locations
