Summary

I have had almost 11 years of experience in dealing with saving customers money on their utility bills as well as whole house comfort and safety. Anywhere from low income to high end home applications. I have experience training new employees and executing jobs on a scheduled timeline. Custom hands on installation. 6 years ameren low income, multifamily installation experience. Blower door assisted air sealing to lower whole house cfm leakage numbers to provide lower utility bills, indoor air quality, and comfort. Also whole house make-up fresh air exchange to prevent moisture and exchangeable air for combustion appliances. I have led my former company to amerens #1 Illinois energy reduction crew for a 2 year run.
