

# Retrofit Installer Technician

CERTIFICATION SCHEME HANDBOOK

## **Notice**

Anyone interested in becoming BPI certified as a Retrofit Installer Technician, will need to know the scope of the certification and all requirements.

This certification scheme handbook outlines the knowledge, skills and abilities needed for individuals to be certified as a Retrofit Installer Technician.

Information in this scheme handbook represents the policies at the date of publication for the BPI Retrofit Installer Technician certification. Information in this scheme handbook supersedes information contained in any previous published documents.

## 1. About BPI

Founded in 1993, the Building Performance Institute (BPI) is the nation's premier certification and standard-setting organization for home performance professionals. BPI is accredited by the American National Standards Institute, Inc. (ANSI) as a developer of American National Standards and as a certifying body for personnel credentials. BPI develops the technical standards for home energy audits and for energy efficiency, health, and safety improvements. From these standards, BPI develops rigorous online and field exams resulting in one of BPI's 14 professional certifications. BPI understands the importance of impartiality in carrying out its certification activities, manages conflict of interest, and ensures the objectivity of its certification activities.

BPI also offers three programs ([BPI GoldStar Contractor](#) for companies, [Rating Program](#) for raters, and [BPI Product Listing](#) for manufacturers) and three certificates ([Building Science Principles](#), [Healthy Housing Principles](#), [Site Supervisor](#)). BPI Certified Professionals hold over 12,000 active certifications supported by over 100 BPI Test Centers and 250 Proctors nationwide. BPI has BPI Goldstar Contractors across the country.

BPI is a 501(c)3 corporation registered in the state of New York. The corporation was incorporated on January 18, 1996 and the corporation number is 14-1789014. The objective of the corporation is to provide credentialing for individuals and corporations involved in the residential retrofit industry. BPI is headquartered in Saratoga Springs, NY.

## 2. BPI Certification Schemes

BPI offers individual certification in a number of areas in the residential retrofit industry.

The certification schemes are developed and then reviewed on an on-going basis by scheme committees made up of subject matter experts (SMEs) – individuals with the credentials and experience within the industry. The scheme committee review statistics, industry changes and current certification scheme requirements on a regular basis.

Industry input on each certification scheme is encouraged. The scheme committee members will seek input from external sources including, but not limited to:

- industry associations
- professional groups
- government agencies
- consumer/owner advocacy groups

The certification outlined in this scheme handbook is for retrofit installer technicians who are involved in the retrofit of existing residential buildings. For a full listing of certifications, see the [www.bpi.org](http://www.bpi.org) website.

For individuals to become BPI RIT certified, successful completion of a multiple-choice exam to confirm the candidate's knowledge and skills and a practicum evaluation is required to confirm the candidate's abilities.

To be certified by BPI, the candidate is not required by BPI to undergo any specific training, whether that would be on-site job training or classroom training, however, prerequisite criteria must be met. BPI does not approve any training programs. It is up to the individual to decide what training they want to take and where to take it, as it is solely their decision.

The requirements for this certification will be reviewed every five years and modified as required by the scheme committee with input from the residential retrofit industry. Modifications to the certification scheme will be made by BPI on the basis of the non-compliance cases, feedback from industry and technical changes to materials, components, systems, building codes or other relevant items.

### **3. Outline of the Retrofit Installer Technician Certification**

This certification scheme handbook outlines the knowledge, skills and abilities requirements for the Retrofit Installer Technician (RIT) certification.

This scheme defines the scope of the RIT certification as the following; a retrofit installer technician is an energy efficiency professional who installs energy efficiency upgrades in single-family homes, and small multi-family housing (2-4 units). A committee of subject matter experts (SMEs) considered to be experts in the field created the Retrofit Installer Technician Job Task Analysis (JTA).

This document is intended to include all of the tasks a retrofit installer technician may perform, as well as the knowledge, skills, and abilities required to do these tasks.

Please note that certification is not a license to practice. All Certified Professionals must comply with applicable federal, state and local laws and regulations governing the profession.

### **4. Preparing for the RIT Exam(s)**

There are prerequisites to take the exams that, if successful, will lead to certification. Before you register for the exam:

- Download the latest version of the BPI Retrofit Installer Technician scheme handbook from [www.bpi.org](http://www.bpi.org)
- Read and understand all information
- Refer to the Functions and Tasks section to be sure that you understand and can perform the tasks required for this certification
- Obtain reference materials for the multiple-choice and/or field exams and study well in advance of taking the exam
- Download the *Application for BPI Retrofit Installer Technician Certification* from [www.bpi.org](http://www.bpi.org) and submit to [HEPCertification@bpi.org](mailto:HEPCertification@bpi.org).

Application processing could take several weeks before a candidate will receive an approval letter to take the exam. It is recommended that a candidate submit their application at least thirty (30) days prior to their preferred exam date. Please do NOT schedule your exam date(s) until you receive your approval letter from BPI.

## 4.1 Prerequisites

All items below are required prior to taking the multiple-choice and/or field certification exams:

- Education: GED/high school diploma **OR** equivalent education from another country **OR** state career readiness certificate (with a minimum score of 3 in each work key) **OR** additional points explained below
- If you have a GED/high school diploma or equivalent from another country **OR** a state career readiness certificate, you must obtain a minimum of **35 points** from any combination of activities below.

If you do not have a GED/high school diploma or equivalent from another country **OR** a state career readiness certificate, you must obtain a minimum of **50 points** from any combination of activities below:

- Industry specific experience (in energy efficiency and renewable energy – installing windows, doors, heating systems, insulation, air sealing, etc.); **maximum of 30 points**
  - **10 points** for each 500 hours
- Building experience (framing, roofing, drywall, siding, etc.); **maximum of 10 points**
  - **5 points** for each 1,000 hours
- Training from industry specific training center (training whose content can be matched against and aligns with the content of the job task analysis for the certification); **maximum of 10 points**
  - **5 points** for every 16 hours
- Industry certifications (RESNET, BPI, NATE, EPA) other certifications also considered; **maximum of 10 points**
  - **5 points** per certification

### For company employees:

BPI accepts a signed certificate or a signed letter, on company letterhead, from current and/or past employers documenting work experience. For the applicant's convenience, a standard template letter is included with the Retrofit Installer Technician certification application. Simply print the template on company letterhead, fill out the requested information and have it signed by a supervisor.

### For individuals who are self-employed, BPI accepts a letter containing:

- An Employer Identification Number (EIN) or other documentation showing how long your company has been in business.
- Number of jobs completed over the last year, including customer contact information and a brief description of each job (e.g. energy audit, air sealing, insulation). BPI will randomly contact customers to verify information given.
- For those documenting energy audits completed, include documentation showing us PO of blower door and pictures of equipment, along with some completed examples of the reports issued to the customer for the energy audit.

Candidates for certification must bring the approval letter sent by BPI to the Test Center where the exam(s) will be administered as proof of meeting the prerequisite criteria. **Candidates will not be permitted to take any exam(s) without providing the approval letter to the Test Center.**

## 4.2 Special Testing Accommodations

Candidates in need of special testing accommodations, such as a language barrier, or arrangements for persons with disabilities, should submit the appropriate forms as noted in Appendix (D and E).

Candidates under the age of 18 will need to submit the *BPI Parental or Guardian Consent and Waiver of Liability Form for Candidates Under the Age of 18* as noted in Appendix E. Candidates will not be allowed to proceed with taking any BPI exams unless this form is signed and completed.

*It is highly recommended that you submit your request for accommodation at least thirty (30) days prior to your preferred exam date.*

## 4.3 Proof of Identity

Candidates must provide a valid photo identification prior to taking the exam. Please make sure that when registering for the exam, the name used is the same that is listed on the valid photo ID.

Examples of acceptable forms of photo ID are:

- driver's license
- state issued photo ID
- passport
- military identification
- employee identification card

## 4.4 Certification Fees and Scheduling

BPI certification exams are provided through BPI Test Centers. Please reach out to a local BPI Test Center for fees and scheduling details of exams, as they will vary from Test Center to Test Center. To locate a BPI Test Center, please go to the BPI website ([www.bpi.org](http://www.bpi.org)) and select **Locator** from the top of the page.

BPI does not set schedules for its Test Centers, nor does BPI collect the exam fees.

## 4.5 Field Testing Environment

In order to ensure fairness in testing, each field exam must be conducted at a BPI pre-approved test site that incorporates the minimum criteria listed below. Field exams conducted at a site that does not meet these minimum criteria will be void. While it is the proctor's responsibility to find a suitable test site, the candidate should also be aware of these requirements to avoid potential testing issues.

- At minimum one atmospherically vented combustion appliance
- A test site capable of supporting blower door testing and diagnostics
- A ducted distribution system
- Must have a bathroom exhaust fan
- Must NOT be a potentially hazardous environment (including but not limited to asbestos-like material, mold and mildew in excess of 10 square feet of surface area, etc)

Field exams for the Retrofit Installer Technician are conducted in a controlled lab environment. Candidates for this certification will perform the knowledge, skills and abilities on standard props developed and approved by BPI.

Please be aware that during the performance exam the proctor may ask questions in relation to line items on the field exam form for clarification purposes only. Proctors should not be asking any other type of questions, and are NOT permitted to ask questions unrelated to, or above and beyond the scope of the line items on the field exam form. If a candidate feels that they were asked questions that were inappropriate, please complete the [Complaint Form](#) located at [www.bpi.org](http://www.bpi.org).

## 5. Multiple-choice Exams

For the Retrofit Installer Technician certification, a multiple-choice test instrument has been developed by BPI in order to ensure competency in the critical tasks defined by industry experts.

The multiple-choice exam is comprised of one hundred (100) questions to cover knowledge and skills and will be timed at two (2) hours. The multiple-choice exam consists of multiple versions, each determined to have its own minimum passing score through psychometric analysis and the Modified Angoff standard-setting procedure. The results page during the online exam session will indicate whether a candidate was successful or not based on the version they were administered.

Candidates may challenge the RIT online exam up to six (6) times in a one-year period. The one-year period begins after the first unsuccessful attempt of the exam, after which time a candidate will have five (5) more attempts to successfully challenge the exam. There is a cost for each exam. BPI permits twelve (12) months to complete the certification process from the time a candidate takes the first exam. Candidates who do not complete the certification process within the one-year period must retake both the online and field exams.

This exam is a closed-book exam; with the exception of BPI Standards, which are available online via the testing site at the time of the exam (no marked copies of the standards will be permitted during the multiple-choice exam). Any papers used to take notes, create diagrams, or record diagnostic results (scrap paper) may not leave the testing environment. All papers must be handed to the proctor to be destroyed.

Future discussion or disclosure of the content of the exam, orally or in writing, or by any other means, is prohibited. Theft or attempted theft of exam items is punishable to the fullest extent of the law. Candidates will be observed at all times by a BPI approved Proctor while taking the exam. This includes direct observation by the BPI approved Proctor, as well as audio and video recording of the

exam. The participation in irregular behavior during the exam may result in the invalidation of the results of the exam, termination of status, civil liability, criminal prosecution, or other appropriate sanctions.

## 6. Practicum (Field) Evaluation (Abilities)

A practical evaluation to determine the candidates' abilities has been developed by BPI in order to ensure competency in the critical tasks defined by BPI. This will provide documented evidence that the candidates have the appropriate abilities.

The practicum evaluation exam is constructed where candidates are requested to perform a task. Their abilities are then evaluated based on a predetermined set of criteria.

The candidates will follow the outline in the functions and tasks section in this document.

The practicum evaluation consists of seven (7) distinct props that candidates will complete work on. Three (3) of the props will be depressurized by approximately 75 Pa by the proctor. Any sign of smoke movement within the prop will indicate a failure on the prop, however, not necessarily on the entire exam.

The time limit for the practicum evaluation is four (4) hours. This exam is an open-book exam (the only reference not permitted is assistance). Any papers used to take notes, create diagrams, or record diagnostic results (scrap paper) may not leave the testing environment. All papers must be handed to the proctor to be destroyed.

The passing score on tasks is 87%.

Candidates may challenge the RIT field exam up to six (6) times in a one-year period. The one-year period begins after the first unsuccessful attempt of the exam, after which time a candidate will have five (5) more attempts to successfully challenge the exam. There is a cost for each exam. BPI permits twelve (12) months to complete the certification process from the time a candidate takes the first exam. Candidates who do not complete the certification process within the one-year period must retake both the online and field exams.

The practicum evaluation is administered through BPI Test Centers at various locations across the United States. Please go to the BPI website ([www.bpi.org](http://www.bpi.org)) and select **Locator** at the top of the page to find a BPI Test Center near you.

## 7. Functions and Tasks

The Knowledge, Skills, and Abilities required for this exam are below.

- Knowledge, typically shown on online or verbal exam
- Skill, typically shown on online exam, diagram, or interactive tool
- Ability, typically demonstrated on prop or in house

<b>DOMAIN 1: Maintain Safety</b>	
<b><i>Task 1: Follow work rules of jurisdiction having authority</i></b>	
<b>Ability to:</b>	
•	Read or hear safety documents
•	Implement safety procedures
•	Report safety concerns and violations
•	Wear safety equipment
•	Attend safety meetings/trainings
•	Request safety training
•	Install safety guards
<b>Knowledge of:</b>	
•	Installation procedures
•	Manufacturer's specifications
•	OSHA
•	Safety systems
<b><i>Task 2: Handle materials/equipment according to manufacturer specifications</i></b>	
<b>Ability to:</b>	
•	Read or hear manufacturer's specifications/Material Safety Data Sheets (MSDS)
•	Store and maintain materials/equipment according to manufacturer's specs/MSDS
<b>Knowledge of:</b>	
•	Manufacturer's specifications
<b><i>Task 3: Handle tools according to manufacturer specifications</i></b>	
<b>Ability to:</b>	
•	Read or hear manufacturer's specifications
•	Store and maintain tools according to manufacturer's specs
<b>Knowledge of:</b>	
•	Manufacturer's specifications
<b>DOMAIN 2: Prepare for the job (before arriving at the job site)</b>	
<b><i>Task 1: Attend Training</i></b>	
<b>Ability to:</b>	
•	Participate in training
•	Identify your strengths and weaknesses
•	Modify installation practice based on training
•	Sign in to training
<b>Knowledge of:</b>	
•	Existing practice
•	Safety procedures
<b><i>Task 2: Gather materials and supplies</i></b>	
<b>Ability to:</b>	
•	Review list of materials
•	Compare materials to work scope
•	Verify and protect condition of materials
•	Organize materials (put in truck, pull from truck, etc.)
•	Report missing or deficient material
<b>Knowledge of:</b>	
•	Compatibility
•	Materials handling
•	Materials
•	Materials limits
•	MSDS
•	Physical limits of materials

•	Work scope
<b>Task 3: Gather tools</b>	
<b>Ability to:</b>	
•	Review tool list
•	Compare tools to work scope
•	Verify and protect tools condition
•	Load/unload tools
•	Report missing or deficient tool
•	Modify tools for specific job requirements (change bits/blades)
<b>Knowledge of:</b>	
•	Work scope
•	Manufacturer's specifications
•	Materials handling
•	Lifting safety
•	Normal tool operations
<b>DOMAIN 3: Prepare and maintain tools and materials on-site</b>	
<b>Task 1: Set up tools</b>	
<b>Ability to:</b>	
•	Unload tools from vehicle
•	Connect attachments
•	Plug in tools
•	Verify operational status
•	Perform routine maintenance
•	Report deficiencies
<b>Knowledge of:</b>	
•	Carrying techniques
•	Double insulated tools
•	Electrical safety
•	GFCI
•	Lifting techniques
•	Manufacturer's specifications
•	Normal operations
•	Tool recognition
•	Work scope
<b>Task 2: Set up materials</b>	
<b>Ability to:</b>	
•	Unload materials from vehicle
•	Organize materials
•	Confirm materials match work specification
•	Maintain integrity of materials
•	Report deficiencies
<b>Knowledge of:</b>	
•	Job site
•	Lifting techniques
•	Materials
•	Materials limits and characteristics
•	Work scope
<b>DOMAIN 4: Prepare and maintain job site</b>	
<b>Task 1: Attend job site safety meeting</b>	
<b>Ability to:</b>	
•	Attend

•	Participate
•	Sign in
<b><i>Task 2: Implement safety protocol (rigging, ventilation, blocking)</i></b>	
<b>Ability to:</b>	
•	Set up safety masking and drop cloths
•	Set up ventilation in confined spaces
•	Set up task lighting
•	Hook up to fall protection
•	Put on Personal Protective Equipment (PPE)
•	Set up ladders, scaffolding, climbing equipment
•	Lock out/tag out
•	Inspect work area for hazards
•	Report work area hazards
<b>Knowledge of:</b>	
•	Combustibles
•	Confined spaces
•	Electrical safety
•	EPA lead safety
•	Equipment operation
•	Fall protection
•	Fit test
•	Hazard recognition
•	Lanyards
•	Local codes
•	Manufacturer's specifications
•	Materials
•	OSHA
•	Personal Protection
•	Safety protocols
•	Ventilation systems and requirements
•	Work scope
<b><i>Task 3: Use protective barriers (drop cloths)</i></b>	
<b>Ability to:</b>	
•	Move furniture (confirm permission)
•	Cover furniture/storage areas/clothes in closets
•	Protect furniture
•	Protect floors
•	Follow safe practices, including lead safe practices (EPA)
•	Place drop cloths, tack mats
•	Use designated facilities (eating, bathroom, smoke break)
<b>Knowledge of:</b>	
•	Adjacent characteristics
•	Electronics
•	EPA lead safety
•	Flooring characteristics
•	Lifting techniques
•	Materials characteristics
•	Safe practices
•	Work scope

<b>Task 4: Report pre-existing conditions (that are not in scope)</b>	
<b>Ability to:</b>	
•	Identify pre-existing conditions (aesthetic/structural)
•	Report pre-existing conditions
•	Report difficult to access places (excessive customer stuff, customer behavior issues)
<b>Knowledge of:</b>	
•	General construction
•	Work scope
<b>Task 5: Protect exterior environment</b>	
<b>Ability to:</b>	
•	Control dust and debris created by equipment from construction activities
•	Protect landscaping (covering, using limiting stakes)
•	Check for oil leaks
•	Report mishaps (spills, cracks)
<b>Knowledge of:</b>	
•	Work scope
•	Retaining walls
•	General landscape knowledge
•	Containment requirements
<b>DOMAIN 5: Implement work scope</b>	
<b>Task 1: Locate specific work areas</b>	
<b>Ability to:</b>	
•	Review the work scope
•	Walk the job
•	Find mechanicals
<b>Knowledge of:</b>	
•	General construction
•	General mechanical knowledge
•	Job site specifics
•	Work scope
<b>Task 2: Verify access to work areas</b>	
<b>Ability to:</b>	
•	Confirm approval for start of work
•	Work with crew chief to get access to areas (move personal belongings, get into crawl space, etc.)
•	Remove obstructions for start of work
<b>Knowledge of:</b>	
•	Work scope
•	General construction
•	Job site
•	Lifting safety
<b>Task 3a: Install air sealing measures</b>	
<b>Ability to:</b>	
•	Identify leaks and bypasses
•	Select materials
•	Look for fire code violations
•	Block large openings
•	Hand seal gaps and cracks
•	Check the seal is complete
<b>Knowledge of:</b>	
•	Clearances

•	Fire code
•	Framing components
•	How to operate a blower
•	How to utilize tracer gas
•	Leak site
•	Material capability (e.g., temperature limits, width of span sealant)
•	Material durability
•	Material strength
•	Penetrations
•	Tolerances
<b><i>Task 3b: Install loose fill insulation</i></b>	
<b>Ability to:</b>	
•	Confirm air sealing is complete
•	Confirm exhaust fans are ducted to outside and insulated
•	Confirm HVAC duct work is intact, sealed, supported and insulated
•	Confirm clearance to combustibles
•	Confirm clearance to electrical
•	Install baffles, blocking, platforms, and insulation dams
•	Install vertical insulation (6-sided boxes, kneewalls)
•	Install horizontal insulation
•	Compare material use to coverage required (bags consumed)
<b>Knowledge of:</b>	
•	Clearance
•	Combustibles
•	Component analysis
•	Coverage charts
•	Depth markers
•	Duct requirements
•	General carpentry
•	How to draw a floor plan
•	How to operate a blower
•	Insulation requirements
•	Manufacturer's specifications for installations
•	Materials
•	Rigid board types
•	R-values
•	Termination requirements
•	Thermal barriers
<b><i>Task 3c: Install or patch moisture barriers</i></b>	
<b>Ability to:</b>	
•	Confirm positive drainage, or notify of stop work items
•	Remove all organic/inorganic materials
•	Install moisture barrier and seal joints and seams
•	Verify flashing is installed
•	Identify and locate moisture sources
•	Report bulk moisture concerns
<b>Knowledge of:</b>	
•	Flashing locations
•	Grading issues
•	Gravity
•	Installation standards

•	Materials
•	Moisture problems
•	Moisture symptoms
•	Roof slope changes
•	Where to look for moisture
<b><i>Task 3d: Rough in mechanical ventilation systems</i></b>	
<b>Ability to:</b>	
•	Uncrate equipment
•	Remove old equipment
•	Cut openings in building
•	Install venting system and vent terminations
•	Install, air seal, and insulate duct
•	Identify when installation is complete
<b>Knowledge of:</b>	
•	Building science basics
•	Equipment disconnects
•	Equipment installation requirements
•	Equipment shut offs
•	Framing basics
•	Hand tool safety
•	How to read installation instructions and standards
•	Manufacturer's specifications
•	Penetration locations and water proofing
•	Protection of materials
•	Use of power tools
<b><i>Task 3e: Identify mechanical systems</i></b>	
<b>Ability to:</b>	
•	Uncrate equipment
•	Assist in removal of old equipment
•	Identify electrical components
•	Identify plumbing components
•	Identify fuel system components
•	Rough in openings in building
•	Repair, air seal, and insulate ducted distribution systems
•	Identify when installation is complete
•	Assist in installation of combustion vent system exhaust
•	Clean/replace air filters
<b>Knowledge of:</b>	
•	Asbestos hazards
•	Basic equipment requirements
•	Basic mechanical code requirements
•	Cavity protection
•	Duct installation and sealing requirements
•	Duct systems and air flow basics
•	Electrical disconnects and fuel shut-offs
•	Electrical circuit testers
•	Framing basics
•	General carpentry
•	Insulation
•	Mastics and duct-sealing materials
•	Penetration locations

•	Protection of installed insulation
•	Protection of materials
•	Sheet metal basics
•	Slope required for drainage/venting
•	Temperature of space
•	Use of power tools
•	Utility knife safety
•	Vent, fuel, and condensate piping
<b><i>Task 3f: Identify combustion appliance safety hazards</i></b>	
<b>Ability to:</b>	
•	Identify primary safety issues – ambient CO (gas leaks, system damage)
•	Assist with interim combustion safety checks
•	Assist with set-up for natural and worst-case depressurization
•	Report findings
<b>Knowledge of:</b>	
•	Combustion appliance exhaust venting systems
•	Combustion appliance safety testing
•	Draft testing basics
•	Natural vs. worst-case conditions
•	Safety protocols
•	Use of tools
•	Ventilation systems
<b><i>Task 3g: Install dense pack insulation</i></b>	
<b>Ability to:</b>	
•	Fine tune machine for application (density)
•	Locate drill points
•	Confirm building component integrity
•	Get access to all building cavities, locate all horizontal blocks
•	Check for hazards
•	Fill first cavity and confirm density stops air leakage
•	Readjust machine
•	Fill all cavities
•	Compare material use to coverage required (bags consumed)
•	Plug hole, patch weather barrier, put siding back, seal openings, caulk joints
<b>Knowledge of:</b>	
•	Basic math skills
•	Blower door testing
•	Building structures
•	Dense pack procedures
•	Drill points
•	Equipment
•	Framing
•	General carpentry
•	Hazards
•	How to probe
•	Limitations of components
•	Materials
•	Smoke testing
•	Strength of components
•	Testing procedures
•	Velocity of materials

<b>Task 3h: Install windows and doors</b>	
<b>Ability to:</b>	
•	Install windows and doors
•	Remove old windows and doors
•	Check and install waterproofing, flashing
•	Install air barrier and ensure drainage
•	Verify air tightness and drainage
<b>Knowledge of:</b>	
•	1/16 inch accuracy
•	Air
•	Basic math skills
•	Building techniques
•	Building codes
•	Building practices
•	Building science
•	Drainage planes
•	EPA lead safety
•	Fasteners
•	Flashing techniques
•	General carpentry
•	Manufacturer's specifications
•	Materials
•	Pressure
•	Quality installations
•	Vapor barriers
•	Window and door types
<b>Task 3i: Identify electrical installation needs (rough-in, fans)</b>	
<b>Ability to:</b>	
•	Resolve hazards
•	Seal penetrations and replace insulation
<b>Knowledge of:</b>	
•	Appliance requirements
•	Building codes
•	Building science
•	Clearances
•	Efficiency
•	Fire code
•	Local codes
•	Manufacturer's specifications
•	Materials
•	NEC
•	Potential damage
•	Trade-specific knowledge
<b>Task 3j: Identify plumbing installation needs</b>	
<b>Ability to:</b>	
•	Remove old equipment
•	Resolve hazards
•	Seal penetrations and replace insulation
•	Check for draft
•	Install simple efficiency measures (low-flow fixtures, pipe wrap insulation)
<b>Knowledge of:</b>	

•	Asbestos
•	Basic carpentry
•	BPI combustion safety
•	Building codes
•	Building science
•	Combustible clearances
•	Domestic water heaters
•	Drainage
•	Fuel gas code
•	Gas fitting
•	Gas fitting code
•	Gaskets
•	Grading
•	Interior finish
•	Local hazards
•	Manufacturer's specifications
•	Materials
•	Pipe insulation
•	Smooth wrench surfaces
•	Tapes
•	Temperature requirements
•	Venting
•	Vermin hazards
<b><i>Task 3k: Identify /Install roofing and flashing installation needs</i></b>	
<b>Ability to:</b>	
•	Identify leak sources
•	Repair leak source
•	Remove roofing system
•	Insulate roof deck
•	Install attic ventilation
•	Flash new penetrations
<b>Knowledge of:</b>	
•	Building science
•	Carpentry
•	Clearances
•	Debris control
•	Drainage
•	Drainage plane
•	Fall protection
•	Fasteners
•	Flashing
•	General carpentry
•	Gravity
•	Local building codes
•	Manufacturer's specifications
•	Materials
•	Math skills
•	Product installations
•	Roofing systems
•	Tools

<b>Task 4: Clean as you go (organize)</b>	
<b>Ability to:</b>	
•	Return tools to central area
•	Pick up material drops
•	Return belongings
•	Clean work area
<b>Knowledge of:</b>	
•	Disposable materials
•	Dust containment
•	EPA lead safety
•	Materials MSDS
•	Safety knowledge
•	Safety requirements
•	Solvents
•	Tool inventory
•	Tool safety
<b>Task 5: Address deviations from work scope</b>	
<b>Ability to:</b>	
•	Identify deviation
•	Report deviation
•	Request direction for modified work scope
•	Implement modified work scope
<b>Knowledge of:</b>	
•	Work scope
<b>DOMAIN 6: Wrap up</b>	
<b>Task 1: Pick up tools and materials</b>	
<b>Ability to:</b>	
•	Inventory tools and materials used
•	Clean tools and materials
•	Store tools and materials
•	Report lost or broken items
<b>Knowledge of:</b>	
•	Basic math skills
•	Manufacturer's specifications
•	Materials
•	Solvents
•	Tool safety
•	Value of materials
<b>Task 2: Clean up and close out</b>	
<b>Ability to:</b>	
•	Break down barriers
•	Pick up protective barriers
•	Contain hazardous materials
•	Contain and dispose of materials and waste
•	Dust, vacuum, mop, scrub, rake
•	Restore occupant belongings
•	Participate in final walk through inside and outside, including restoring mechanical systems
•	Report to crew chief for final inspection
<b>Knowledge of:</b>	
•	Disposal procedures
•	EPA Lead safety

•	Hazardous materials
•	Local codes
•	Local facilities
•	MSDS
•	Safe lifting practices
•	Safety procedures
•	Work scope
<b>Task 3: Participate in crew debriefing (after action review, post construction job review)</b>	
<b>Ability to:</b>	
•	Attend meeting
•	Report deficient knowledge (more instruction for installer)
•	Report what went well and what went wrong
•	Discuss homeowner concerns, complaints, and compliments
•	Offer additional safety suggestions
<b>Knowledge of:</b>	
•	Safety procedures
•	Work scope

## 8. Retrofit Installer Technician Exam Blueprint (multiple-choice)

Duties and Tasks	
<b>A</b>	<b>Maintain safety</b>
1	Code of Conduct
2	Professionalism skills
3	Follow work rules of jurisdiction having authority
4	Handle materials / equipment according to manufacturer's specifications
5	Handle tools according to manufacturer's specifications
<b>B</b>	<b>Prepare for the job (before arriving to job site)</b>
1	Attend training
2	Gather materials and supplies
3	Gather tools
<b>C</b>	<b>Prepare and maintain tools and materials on-site</b>
1	Set up tools
2	Set up materials
<b>D</b>	<b>Prepare and maintain job site</b>
1	Attend job site safety meeting
2	Implement safety protocol (rigging, ventilation, blocking)
3	Use protective barriers (drop cloths)
4	Report pre-existing conditions (that are not in scope)
5	Protect exterior environment
<b>E</b>	<b>Implement work scope</b>
1	Locate specific work areas
2	Verify access to work areas
3a	Install air sealing measures
3b	Install loose fill insulation
3c	Install or patch moisture barriers
3d	Rough in mechanical ventilation systems
3e	Identify mechanical systems
3f	Identify combustion appliance safety hazards
3g	Install dense pack insulation
3h	Install windows and doors

	3i	Install electrical (rough-in, fans)
	3j	Identify plumbing installation needs
	3k	Install roofing and flashing
	4	Clean as you go (organize)
	5	Address deviations from work scope
<b>F</b>		<b>Wrap-up</b>
	1	Pick up tools and materials
	2	Clean up and close out
	3	Participate in crew debriefing (after action review, post construction job review)

	5	Address deviations from work scope
<b>F</b>		<b>Wrap-up</b>
	1	Pick-up tools and materials
	2	Clean up and close out

## 10. Standards of Reference

All BPI exams are based on a mixture of industry practices, axiomatic<sup>1</sup> concepts, and major standards of references. No singular source exists that could touch upon every aspect for what is considered testable. Conversely, there is no limit to the potential useful material found in print and online.

<sup>1</sup> An axiomatic concept is something implicit that requires no proof or explanation (e.g. – the sum of 2 and 2 is 4, or gravity states that if you drop something, it will fall to a lower level).

- BPI – Building Analyst Professional
- ASHRAE 62.2-2010
- Standard Work Specification (SWS) – <https://sws.nrel.gov/>

## 11. Exam Security

Exams are highly confidential materials. Any attempts to willfully compromise the integrity of the exam, the exam process, or the certification process shall be taken seriously; offenders may be prosecuted to the fullest extent of the law. In addition, any certification credential may be revoked immediately if a breach is proven to have been made by a certified individual.

## 12. Granting

In order to receive RIT certification, the candidate must meet all prerequisite requirements, as well as successfully complete both the multiple-choice (online) and practical (field) exams.

### 12.1 Notification of Exam Results and Certification

Once exam results have been processed the candidate will be able to log in to their [Candidate Account](#) to view exam results.

The BPI Certified Professional will be notified once BPI certification has been awarded. BPI Certified Professionals may log into their [Candidate Account](#) and retrieve a digital copy of their active certification(s) and ID Badge to use on their mobile device or print from a PDF.

The certificate will expire three (3) years from the date of initial certification.

The photo identification certification card contains, but is not limited to:

- name of the Certified Professional
- BPI ID number
- BPI's name and logo
- reference to a certification scheme (name of certification)
- date when certification expires

### 12.2 Time Limits for Completing Certification

BPI permits twelve (12) months to complete the certification process from the time a candidate takes the first exam. Candidates may challenge the RIT online and field exam(s) up to six (6) times (each) in a one-year period. The one-year period begins after the first unsuccessful attempt of the exam, after which time a candidate will have five (5) more attempts to successfully challenge that particular exam.

Candidates that do not successfully complete the RIT online and field exams and achieve certification within the one-year period, must wait for the one-year anniversary of the first unsuccessful attempt to challenge the exam(s) again.

## 12.3 Extensions

BPI reserves the right to extend a Certified Professional's certification on a case-by-case basis. Certifications are not guaranteed to be extended; only under extenuating circumstances that BPI deems warranted. If a certification is extended, any CEUs that were accumulated up to the point of the original expiration date will also be included in that extension.

## 12.4 Confidentiality of Information

BPI and BPI Test Centers shall adhere to all policies and procedures regarding candidate confidentiality and shall not release any information regarding any candidate or Certified Professional without obtaining prior written permission. Forms for this purpose are provided as part of the application. This disclosure form is intended to assist BPI and the BPI Test Center to protect the candidate's or Certified Professional's information.

## 13. Home Energy Professional Certification Renewal

### 13.1 Retrofit Installer Technician Certification Renewal

BPI Certified Professionals who hold the Retrofit Installer Technician certification will be required to renew their certification every three (3) years.

The certification renewal requirements for BPI certified Retrofit Installer Technician must be completed prior to the current certification expiration date. Certified Professionals will be allowed to start the certification renewal process six (6) months prior to expiration, and if successful, will have the next renewal date as three (3) years from the current certification expiration date. If certification renewal is completed more than six (6) months in advance, the expiration date will change to the date of last successful exam.

**Certification Renewal:** when a BPI Certified Professional successfully attempts to renew their Retrofit Installer Technician certification on or before their current certification expiration date within the confines of the BPI Certification Renewal requirements as outlined below.

To be eligible for certification renewal, BPI certified Retrofit Installer Technicians:

- may accumulate a minimum of thirty (30) qualifying\* continuing education units (CEUs) over the three (3) years of certification in order to bypass the online exam, OR
- successfully challenge the online exam that is current at the time of renewal.

**\*Qualifying CEUs are defined as any educational trainings/sessions that align with the Functions and Tasks (knowledge, skills, and abilities) section in the Retrofit Installer Technician certification scheme handbook.\***

- In addition to either accumulating the minimum number of qualifying CEUs **OR** successfully completing the corresponding online exam, the Certified Professional **must successfully challenge the field exam** that is current at the time of renewal.

**\*There is no allowance for bypassing the field exam in order to renew the Retrofit Installer Technician certification.\***

By completing certification renewal, all BPI certified Retrofit Installer Technicians are re-attesting to the Code of Ethics located in the Retrofit Installer Technician scheme handbook (Appendix B).

Initial Certification Renewal Scenarios		Certification Result:
If individual completes:	Plus one of the items below:	
Field Exam (Successful)	Online Exam (Successful)	Certification Renewal Completed
Field Exam (Successful)	Relevant CEUs (bypass online exam)	Certification Renewal Completed

As part of the certification renewal process, BPI will review the certified Retrofit Installer Technician's file for any open complaints. Should there be any open complaints at the time of expiration, BPI will not award certification renewal. The certification of the individual will be withdrawn or revoked due to the Certified Professional's negligent refusal to follow the certification scheme requirements.

## 13.2 Retrofit Installer Technician Certification Reissuance

Any unsuccessful attempt at certification renewal will end the current certification. Please refer to the table on the next page for details about the different Certification Reissuance Requirements.

**Certification Reissuance:** when a BPI Certified professional makes their first full attempt at meeting both the online and field requirements for renewal on, or within six months prior, to their expiration date, **AND are unsuccessful on one (1) of the renewal exams**, the current certification will end and become deactivated. If the candidate can then successfully challenge that unsuccessful exam within a one-year period, as outlined in the chart below, the certification will be reissued.

A candidate will have five (5) more attempts to successfully challenge the exam. There is a cost for each exam. BPI permits twelve (12) months to complete the certification process from the time a candidate takes the first exam. Candidates who do not complete the certification process within the one-year period must retake both the online and field exams.

**\*Certification Reissuance is not considered a renewal of the original certification; therefore, a new certification date will be issued.\***

Initial Certification Renewal Scenarios		Certification Result:
If individual completes:	Plus the item below:	
Field Exam (Successful)	Online Exam (Unsuccessful)	Current certification is deactivated. Candidates will have one (1) year from the date of the successful field exam to successfully challenge the online exam to complete the certification. New certification date will be the date of the successful online exam.
Initial Certification Renewal Scenarios		Certification Result:
If individual completes:	Plus the item below:	
Online Exam (Successful)	Field Exam (Unsuccessful)	Current certification is deactivated. Candidates will have one (1) year from the date of the successful online exam to successfully challenge the field exam to complete certification. New certification date will be the date of the successful field exam.
Relevant CEUs (bypass online exam)	Field Exam (Unsuccessful)	Current certification is deactivated. Candidates will have one (1) year from the date of the unsuccessful field exam to complete the certification. New certification date will be the date of the successful field exam.

**\*If a Certified Professional is using relevant CEUs for their first full attempt at renewal, the online requirement is considered fulfilled. Candidates who are unsuccessful on the field exam will then have one (1) year to complete the field requirement as explained in the chart above. If the certification ends due to an unsuccessful online exam, CEUs cannot be accumulated towards certification reissuance; the Certified Professional must successfully complete the online exam.\***

**By becoming BPI RIT certified, Certified Professionals are automatically re-attesting to BPI's Code of Ethics.**

**\*BPI reserves the right to make changes to this policy at any time. If changes are made, BPI will attempt to notify all participants via email. Always refer to the most up to date version of the scheme handbook located at [www.bpi.org](http://www.bpi.org).\***

## 14. Surveillance

Surveillance of the Certified Professional is established to ensure compliance to the policies and procedures for which the certification was granted. The certification of the individual may be withdrawn or revoked due to Certified Professional's negligent refusal to follow the certification scheme requirements or failure to take appropriate corrective action as required by BPI.

## 15. File Review

The Certification Department will conduct a file review of Certified Professionals that have complaints filed against them. The review of the Certified Professional's file activities includes confirmation that any complaints against the Certified Professional have been resolved.

## 16. Corrective / Preventative Action

The corrective / preventative action shall include one of the following and is determined on a case by case basis at the discretion of BPI:

**Level One:** A corrective action will be given when the infraction is considered minor in nature. A written warning shall be sent to the Certified Professional about the nature of the infraction along with the required corrective action. The written warning shall become part of the Certified Professional's record.

**Level Two:** A corrective action will be given when the infraction is considered major in nature and requires proof. A written warning is sent to the Certified Professional about the infraction. The Certified Professional is required to submit documented proof that the infraction has been corrected. The written warning and response will become part of the Certified Professional's record.

## 17. Withdrawal of Certification

Should the BPI certified Retrofit Installer Technician not maintain certification by not being able to fulfill the obligation of the certification due to illness, disability, change of profession, etc., the certification will be withdrawn at the request of the Certified Professional. BPI must be notified immediately if a Certified Professional may not be able to, or is no longer able to, fulfill the requirements of the certification.

BPI reserves the right, on a case by case basis, to withdraw a person's BPI Certification(s) at its discretion. Reasons for withdrawal of a BPI Certification include, but are not limited to:

- Failure to meet certification renewal criteria as outlined in Section 13
- Failure to take steps to submit the requested information of a corrective action as outlined in Section 16
- Failure to follow the BPI Retrofit Installer Technician Code of Ethics and/or Code of Conduct
- Failure to follow BPI Standards that align with the certification's JTA's, when applicable

In the event the BPI Retrofit Installer Technician certification is withdrawn; the BPI Manager of Client Relations will review the Certified Professional's record and send confirmation of the withdrawal within

thirty (30) days and provide a written statement in regard to steps that must be taken if the candidate requests the certification be reinstated.

Use of the BPI logo or brand and representation of being BPI certified must cease immediately if a certification is withdrawn, revoked, or expired.

## 18. Appeal Procedure

Individuals who wish to file an appeal of a decision on certification, against the results of an RIT exam, or regarding the suspension of the RIT certification, must do so in writing.

**Please Note:** If a candidate chooses to challenge the exam that they are appealing prior to the notification of a final decision on their appeal, the results of the appeal will be null and void; regardless of the outcome, and the original score of the appealed exam will stand.

### Appeal Process for Exam Review

To contest the results of an RIT exam, the candidate must follow the procedures, below:

1. A request for review must be made within thirty (30) days from the date of the exam. The request for review may be made in the following manner:
  - a. Submit the Exam Grade Appeal Form via the [BPI website](#):  
Go to [www.bpi.org](http://www.bpi.org) and hover over **About Us** at the top of the page, select **Contact Us**. Enter your information and choose **Exam Grade Appeal** from the **Category** dropdown box.
  - b. Send a letter via registered mail to:  
Building Performance Institute, Inc.  
Attn: Appeals  
63 Putnam Street, Suite 202  
Saratoga Springs, NY 12866
  - c. Send an email to [Appeals@bpi.org](mailto:Appeals@bpi.org)
2. The request for review must specifically state the reasons why the candidate believes the initial decision should be modified or overturned and provide information on the issue; or include a specific reference where required procedures were not followed.
3. The review will be carried out by the Quality Assurance (QA) Department. Review results will be forwarded to the Director, who will provide the decision to the candidate, via email, within thirty (30) days of receiving the request for appeal.

### Appeal Process for Suspension of Certification

For a review of suspension or withdrawal of certification, the Certified Professional must follow the procedures, below:

1. A request for review must be made within thirty (30) days from the date of the suspension or withdrawal of certification. The request for review may be made in the following manner:

- a. Submit the Complaint Form via the [BPI website](#):  
Go to [www.bpi.org](http://www.bpi.org) and hover over **About Us** at the top of the page, select **Contact Us**. Enter your information and choose **Complaint Form** from the **Category** dropdown box.
  - b. Send a letter via registered mail to:  
Building Performance Institute, Inc.  
Attn: Appeals  
63 Putnam Street, Suite 202  
Saratoga Springs, NY 12866
  - c. Send an email to [Appeals@bpi.org](mailto:Appeals@bpi.org)
2. The request for review must specifically state the reasons why the Certified Professional believes the initial decision should be modified or overturned and provide new information on the issue; or include a specific reference where required procedures were not followed.
  3. The review will be carried out by the Quality Assurance (QA) Department. Review results will be forwarded to the Director, who will provide the decision to the candidate, via email, within thirty (30) days of receiving the request for appeal.

## 19. Complaints

BPI recognizes that there are two main types of complaints that may be brought to its attention:

- Complaints regarding BPI and/or its related vendor organizations (administrative, testing, Test Center, proctor, etc.)
- Complaints regarding BPI Certified Professionals or organizations with BPI Certified Professionals on staff

### Complaints Process

To file a complaint, the individual must follow the procedures, below:

1. A complaint must be made within thirty (30) days from the date that the situation occurred. The request for review may be made in the following manner:
  - a. Submit the Complaint Form via the [BPI website](#):  
Go to [www.bpi.org](http://www.bpi.org) and hover over **About Us** at the top of the page, select **Contact Us**. Enter your information and choose **Complaint Form** from the **Category** dropdown box.
  - b. Send a letter via registered mail to:  
Building Performance Institute, Inc.  
Attn: Complaints  
63 Putnam Street, Suite 202  
Saratoga Springs, NY 12866
  - c. Send an email to [Complaints@bpi.org](mailto:Complaints@bpi.org)
2. The request for review must provide specific details for the complaint and any type of documented information that pertains to the situation.

3. The review will be carried out on a case by case basis by the Quality Assurance (QA) Department. Review results will be forwarded to the Director, who will provide the decision to the complainant, via email, within thirty to forty (30 – 40) days of receiving the complaint.

## **20. Comments**

Submit any comments regarding the certification exams or processes to [HEPCertification@bpi.org](mailto:HEPCertification@bpi.org).

## Appendix A – Code of Conduct

### Code of Conduct

Certification may be denied, suspended, or revoked, if an individual is not in compliance with this Code of Conduct. Grounds for disciplinary action include (but are not limited to):

1. An irregular event in connection with an exam, including (but not limited to) copying exam materials, causing a disruption in the testing area, and failure to abide by reasonable exam administration rules;
2. Taking the exam for any purpose other than that of becoming certified in the technical area referenced in the title of the exam;
3. Disclosing, publishing, reproducing, summarizing, paraphrasing, or transmitting any portion of the exam in any form or by any means, verbal, written, electronic or mechanical, without the prior expressed written permission;
4. Providing fraudulent or misleading information;
5. Failure to pay fees when due;
6. Unauthorized possession or misuse of certifications;
7. Misrepresentation of certification status;
8. Failure to provide requested information in a timely manner;
9. Impairment of professional performance because of habitual use of alcohol, drugs, or other substance, or any physical or mental condition;
10. Gross or repeated negligence or malpractice in professional work;
11. Failure to maintain a current professional credential as required by the jurisdiction in which the individual practices (this may include a license, certificate, or registration);
12. The conviction of, plea of guilty to, or plea to a felony or misdemeanor related to public safety or the building industry;
13. Disciplinary action by a licensing board related to a building industry; and
14. Other failure to maintain continuous compliance with the certification standards, policies, and procedures related to your certification.

## **Disciplinary Actions**

The following disciplinary actions may be taken as a result of non-compliance with this Code of Conduct:

- Denial or suspension of eligibility;
- Denial of certification;
- Revocation of certification;
- Non-renewal of certification;
- Suspension of certification;
- Reprimand; or
- Other corrective action.

## Appendix B – Code of Ethics

The Building Performance Institute, Inc. (BPI) is committed to promoting the highest level of professionalism, integrity, and ability available in the residential contracting certification industry. By obtaining the Retrofit Installer Technician Certification, you are agreeing to the terms and conditions of BPI's Code of Ethics.

This Code of Ethics for Retrofit Installer Technicians is designed to foster trust and mutual respect among individuals working in the industry as well as the public at large; it is intended to increase the esteem of the credentials and of the individuals who have earned them. This Code does not discourage healthy competition within the industry. BPI considers industry relationships critical to the industry's success. This Code is also not intended to limit the ability of Retrofit Installer Technicians to earn fair compensation for their services. BPI's goal is to promote the professionalism of Retrofit Installer Technicians' work products and thereby to enhance their quality.

<b>I. Avoiding Conflicts of Interest</b>
A. Installers shall not participate in professional activities involving a conflict of interest. A conflict of interest occurs when an installer is inappropriately motivated by any financial, personal, or professional purpose other than the fulfillment of work orders. Work order fulfillment means the delivery of paid professional services, as specified, that skillfully, completely, and usefully meet the client's or employer's stated needs and desires, in compliance with all applicable codes, regulations, and standards.
B. Installers shall avoid, whenever possible, even the appearance of a conflict of interest and shall disclose all potentially questionable associations and relationships in advance to any stakeholder with a legitimate right to be informed of them.
C. Installers shall not accept any form of compensation for recommending products or services to clients or other parties.
D. When asked for professional recommendations, installers shall direct the client to the official sources for up-to-date lists of Certified Professionals and accredited contracting companies before making any personal referrals. Personal referrals and recommendations are acceptable provided that they do not violate any article within this Code of Ethics.
<b>II. Professionalism and Integrity</b>
A. Installers shall comply with all safety-related regulations, warnings, and instructions set forth by local, state, or federal organizations and other recognized safety organizations.
B. Installers shall report to all appropriate parties any safety and security concerns directly related to any work performed by any previous or other current installers.
C. Installers shall perform work based on best practices and standards in the field, using diagnostic and testing visual inspection within their areas of education, training, and expertise.
D. The installer shall employ building science best practices to improve safety, comfort, durability, indoor air quality, and energy efficiency.
<b>III. Representation of the Installer Profession and Self-Representation</b>
A. Installers shall neither misrepresent nor knowingly deceive others concerning their experience and capabilities.
B. Installers shall neither misrepresent nor misuse their certification.

C. Installers shall not engage in any conduct that is detrimental to the reputation or the best interests of the Retrofit Installer Technician Certification, the profession, or the industry as a whole.

D. Installers shall act professionally at all times and in the best interests of the client and employer. Installers shall not act in any way that denies or impedes competent, timely, and professional service to the client or employer.

E. Installers shall not willfully damage, or by negligence or indifference allow to be damaged, any property belonging to clients or employers. Installers shall take reasonable means to protect the owner's health, safety, property, and possessions and also to prevent the undue loss, theft, waste, and dissipation of the owner's funds, resources, and supplies.

F. Installers shall not betray the trust that property owners and employers have placed in them by inviting them to work in their homes and businesses.

#### IV. Maintaining Confidentiality

A. Installers shall not discuss or disclose to third parties any confidential information about properties, employers, and clients, unless required by court order to do so. Confidential information is defined here as names, addresses, phone numbers, financial data, personal details, vulnerabilities, defects, measurements, diagrams, blueprints, photographs, recordings, electronic versions, and other descriptions or representations that only the employers or clients have a right and a need to know about and disseminate.

B. Installers shall not, without permission, disclose private, confidential information about any client or employer for the use or interests of any third parties whose services and opinions have not been explicitly requested by the client or employer. Installers may discreetly discuss their own work and working conditions with their family and associates, but not in any way that violates the privacy of the employers, clients, and relevant family members.

#### V. Disciplinary Actions and Appeal

A. Violation of any article of this Code of Ethics could result in disciplinary actions including the revocation of the installer's certification.

B. Installers have the right to appeal any disciplinary decisions to the certifying body.

## Appendix C – BPI Certification Agreement

### BPI Certification Agreement

Retrofit Installer Technician applicants will be required to accept BPI's Candidate Certification Agreement before beginning your exam. Make sure to read and be familiar with this agreement before you take your exam

BY SIGNING YOU ARE AGREEING TO THE TERMS AND CONDITIONS OF THIS CANDIDATE CERTIFICATION AGREEMENT. CANDIDATE OR CERTIFIED INDIVIDUAL MAY TAKE THE EXAM ONLY IF CANDIDATE OR CERTIFIED INDIVIDUAL AGREES TO THE TERMS AND CONDITIONS OF THIS AGREEMENT. IF CANDIDATE OR CERTIFIED INDIVIDUAL DOES NOT AGREE TO THE TERMS AND CONDITIONS, CANDIDATE OR CERTIFIED INDIVIDUAL SHALL SELECT "NO, I DO NOT AGREE" BELOW AND WILL NOT BE ALLOWED TO TAKE THE EXAM.

BPI and Candidate or certified individual hereby agree that the terms and conditions of the Agreement shall govern Candidate or certified individual's participation in BPI's Certification Exam and BPI's Certification.

#### 1. CERTIFICATION

- a. The Candidate or certified individual must:
  - meet the prerequisites
  - pay the applicable exam fees;
  - accept the terms and conditions of this Agreement before completing the Exam;
  - pass the exam(s)
  - keep contact information up to date
- b. Modification to Certification Requirements. BPI's Director level staff may expand or reduce the title or scope of the desired certification or withdraw the certification.
- c. Termination. Candidate or certified individual may terminate this Agreement at any time upon written notice to BPI. The Certification or certified individual is valid for a period of three (3) years after the date of passing the last qualifying exam. If the candidate or certified individual chooses to terminate this agreement prior to the expiration date of their certification, the certification, including all related material, must be surrendered and will be void. Upon termination of this Agreement and after the expiration of the Certification, all rights related to the Candidate's Certification, including all rights to use the Certification and the Logo, will immediately terminate.

#### 2. COMPLIANCE WITH TESTING REGULATIONS

Candidate or certified individual agrees to comply with all testing regulations required by BPI and/or its Test Centers and testing centers.

- d. No Cheating. Candidate or certified individual agrees that all answers submitted in completing the Exam and are entirely their own. Candidate or certified individual will neither: (i) provide nor accept improper assistance; nor (ii) use unauthorized materials in attempting to satisfy Certification Requirements.
- e. No Misconduct. Candidate or certified individual agrees not to (i) falsify his or her identity or impersonate another individual; (ii) forge the Certification, Exam score reports, identification cards or any other Exam records; (iii) engage in fraudulent conduct or misrepresent him or herself as Certified when he or she has not successfully met the applicable Certification Requirements; (iv) misuse or disclose username and/or password or any other Certification identities; and/or (v) engage in any other misconduct that could be considered by BPI, in its sole discretion, as compromising the integrity, security or confidentiality of the Exam or the Certification.
- f. No Disclosure. Candidate or certified individual understands and agrees that the Exam is BPI's confidential and proprietary information. Candidate or certified individual agrees to maintain the confidentiality of the Exam and not disclose, whether verbally, in writing or in any media, the contents of the Exam or any part of the Certification. Further, Candidate or certified individual agrees not to request any other individual to disclose the Exam or any part thereof to the Candidate or certified individual.

- g. No Misuse of the Exam. Candidate or certified individual agrees not to copy, publish, offer to sell, sell, publicly perform or display, distribute in any way or otherwise transfer, modify, make derivative works thereof, reverse engineer, decompile, disassemble or translate the Exam or part thereof.
3. BPI ACTION FOR NON-COMPLIANCE
- h. Candidate or certified individual understands and agrees that, if for any reason and at its sole discretion, BPI believes the Candidate or certified individual violated the terms of this agreement or the criteria against which the competence of a person is evaluated in accordance with the scheme of the certification. BPI has the right to deny Candidate or certified individual any further participation in the Exam, cancel a passed Exam result, remove the Candidate or certified individual's certified status and any other rights previously conferred on the Candidate by BPI, and to permanently bar Candidate or certified individual from any further participation in BPI's Certification.
4. WITHDRAWAL OF CERTIFICATION
- i. Should the certified individual not maintain or not continue to prove their competence for this certification to the satisfaction of BPI, the certification will be withdrawn. In the event the certification is withdrawn, the BPI certification operations manager will review the certified individual's record and provide a written statement in regards to steps that will be taken in order for the certification to be reinstated.

Reasons for withdrawal of an individual's certification by BPI include, but are not limited to:

- Failure of the multiple-choice test instrument.
  - Failure of field evaluation.
  - Verification of a complaint by building owner or the owner's representative for failure to meet installation requirements and then not correcting the deficiency.
  - Failure to take steps to correct improper practices.
- j. If the certified individual may not be able or is no longer able to fulfill the requirements of the certification the certified individual must notify BPI immediately and surrender all certification documents, such as BPI ID Card and BPI Certificate to BPI, and cease using any logo or marketing materials.
5. REPRESENTATIONS AND WARRANTIES
- k. By the Candidate or certified individual. Candidate or certified individual represents and warrants that: (i) Candidate or certified individual will refrain from any conduct that may harm the goodwill and reputation of BPI or its products and (ii) Candidate or certified individual shall not make any representation, warranty or promise on behalf of or binding upon BPI and (iii) Candidate or certified individual shall not make claims regarding certification outside of the intended scope of the appropriate certification.
- l. Candidate or certified individual agrees to not use the certificate in a manner that is misleading or unwarranted.
6. INDEMNIFICATION
- m. Candidate or certified individual agrees to indemnify, defend and hold BPI harmless against any losses, liabilities, damages, claims and expenses (including attorneys' fees and court costs) arising out of any claims or suits, whatever their nature and however arising, in whole or in part, which may be brought or made against BPI, or its Test Centers, officers, employees or assigns, in connection with: (i) any personal injury, property damage or other claims which are caused, directly or indirectly by any negligent act, omission, illegal or willful misconduct by the Candidate or certified individual, (ii) Candidate or certified individual's use or misuse of the Certification and/or the Logo; (iv) Candidate or certified individual's use or misuse of BPI' confidential information; and/or (v) Candidate or certified individual's breach of any obligations or warranties under this Agreement.
7. LIMITATION OF LIABILITY
- n. Damages. BPI shall not be liable for any indirect, incidental, special, punitive, or consequential damages or any loss of profits, revenue, or data. BPI's liability for direct damages, whether in contract, tort or otherwise, shall be limited to the fees paid to BPI under this Agreement.
8. CONFIDENTIALITY UNDERTAKING
- o. By signing this Agreement, Candidate or certified individual agrees to all terms and conditions herein
- p. Candidate agrees (i) to hold Confidential Information in confidence and take all reasonable precautions to protect it, (ii) not to, directly or indirectly, use Confidential Information at any time during the certification procedure, the performance of the Exam and thereafter, and (iii) not to, directly or indirectly, disclose, publish, reproduce or transmit any Confidential Information completely or in part to any third party, in any form, including but not limited to verbal, written, electronic or any other means for any purpose without the prior express written permission of BPI.

- q. BPI retains all rights, title and interest in and to all information, content and data contained in the Exam and all copyrights, patent rights, trademark rights and other proprietary rights thereto provided by BPI under the certification procedure and Exam.

Upon any breach by the Candidate or certified individual of the confidentiality undertaking in the Candidate Certification Agreement, BPI may automatically and without notice withdraw Candidate's Certification. Further, BPI is entitled to pursuing any other available remedy for unauthorized disclosure or for breach of the confidentiality undertaking in said Agreement.

## Appendix D – Candidates with Special Testing Accommodations

### Candidates with Special Testing Accommodations

The Americans with Disabilities (ADA) Act provides comprehensive civil rights protection for qualified individuals with disabilities. An individual with a disability is a person who: (1) has a physical impairment or a mental impairment that substantially limits a major life activity, (2) has a record of such impairment, or (3) is regarded as having such an impairment.

The ADA does not specifically name all of the impairments that are covered. If you have a disability, you have the right to inquire and receive information about testing accommodations.

“Testing Accommodation” means an adjustment to or modification of the standard testing conditions that eases the impact of the applicant’s disability on the exam process without altering the nature of the exam.

As an applicant claiming a disability that requires testing accommodations, the applicant must properly complete the Special Testing Accommodation form. The burden of proof is on the applicant to establish the existence of a disability protected the Americans with Disabilities Act, as well as to establish the need for testing accommodations. Each application is evaluated on a case by case basis.

Qualified individuals with disabilities are required to request accommodations every time they plan to take the exam. It is in the candidate’s best interests to provide recent and appropriate documentation, which clearly defines the extent and impact of the impairment(s) upon current levels of academic and physical functioning.

- Request for accommodations and appropriate supporting documentation, which when completed, should provide evidence of a substantial limitation to physical or academic functioning.
- Clinical evaluations and exams of the candidate that have resulted in a diagnosis of a physical or mental impairment must have been performed by a licensed/certified or otherwise qualified professional with credentials appropriate to diagnose a candidate’s disability consistent with the provisions of the ADA. Details about the professional’s area of specialization and professional credentials must be provided.
- Documentation must be submitted on official letterhead from a licensed or qualified professional who examined the candidate and diagnosed a physical or mental impairment. Depending on the disability and written evaluation, documentation may include a letter from a physician or a detailed report.
- Document must be no more than 3 years old.
- Documentation for all disabilities should describe the extent of the disability and recommended accommodations.

A diagnosis of Attention Deficit Disorder (ADD) or Attention Deficit Hyperactivity Disorder (ADHD) must be supported by a current (administered within the past three years) comprehensive evaluation and relevant neuropsychological or psychoeducational assessment batteries. The report must include documented information that the patient meets criteria for long standing history, impairment, and pervasiveness. The report must include specific diagnosis of ADHD based on the DSM-IV diagnostic criteria.

- [Candidate Application for Special Testing Accommodations](#), or go to [www.bpi.org](http://www.bpi.org)
- [Provider Application for Special Testing Accommodations](#), or go to [www.bpi.org](http://www.bpi.org)
- Clinical evaluation on official letterhead (letter or detailed report)

Please submit the forms at least thirty (30) days prior to your scheduled exam.

Once these forms have been reviewed the applicant will receive notification of approval or denial from BPI. If approved, you must bring the approval notice with you to the BPI Test Center.

## Appendix E – Language Barrier Testing Accommodations

### Language Barrier Testing Accommodations

If you have difficulty in comprehending the language of the exam, you have the right to inquire in advance of testing whether any accommodations may be available to you. BPI shall allow the candidate, at his or her expense, to have an interpreter present at either a online or field exam, provided that the interpreter is a bona fide interpreter that is engaged in that profession and that is pre-approved by BPI.

BPI Standard Testing Accommodations for candidates with a language barrier.

#### **Online Exams:**

Exam times will be doubled.

#### **Field Exams:**

Exam times will be doubled.

- [Candidate Application for Language Barrier Testing Accommodations](#), or go to [www.bpi.org](http://www.bpi.org)

Please submit the form at least thirty (30) days prior to your scheduled exam.

Once the form has been reviewed, the applicant will receive notification of approval or denial from BPI. If approved, you must bring the approval notice with you to the BPI Test Center.

# Appendix F – BPI Parental or Guardian Consent and Waiver of Liability Form for Candidates Under the Age of 18

See Reverse for Waiver and Release of Liability, Assumption of Risk Agreement and Parental Consent and Indemnity Agreement

By initialing here, I (or parent/guardian if under 18 years of age) understand this is a two-sided document which contains important information on the reverse of this form and requires my signature on the final page \_\_\_\_\_ (Initial here).

**BY SIGNING, YOU ARE AGREEING TO THE TERMS AND CONDITIONS OF THIS WAIVER AND RELEASE OF LIABILITY. CANDIDATE MAY TAKE THE EXAM ONLY IF CANDIDATE AND PARENT/GUARDIAN AGREES TO THE TERMS AND CONDITIONS OF THIS AGREEMENT. IF CANDIDATE AND PARENT/GUARDIAN DO NOT AGREE TO THE TERMS AND CONDITIONS, CANDIDATE SHALL SELECT "NO, I DO NOT AGREE" BELOW AND WILL NOT BE ALLOWED TO TAKE THE EXAM.**

**Dear Parent or Guardian:**

We appreciate your child’s interest in learning building science and preparing for employment in the residential energy efficiency industry. BPI Professionals perform diagnostics, repairs, and install improvements on homes that translate into energy savings, improved comfort, and more durable homes. While every precaution is taken to ensure a safe exam experience for candidates, existing homes do present certain dangers. BPI and the BPI Test Center delivering this exam rely on mature, responsible professional proctors to deliver exams, however there are certain hazards inherent in the exam process. Accordingly, it is our policy to require the execution of this Consent Waiver of Liability Form by a parent or guardian of candidates under the age of 18. Please be aware that the laws of your state may prohibit persons under the age of 21 from obtaining employment in certain construction related fields.

Please acknowledge your consent and agreement to the following by signing below:  
I am the parent and/or legal guardian of \_\_\_\_\_, who is \_\_\_\_\_ years old,  
*full name of candidate* *age*  
and he/she has my permission to participate in the BPI exam process.

On behalf of said minor, I hereby release BPI, the BPI Test Center, their officers, agents, employees, volunteers, owner(s), administrators, directors, officers, trainers, and employees from and against any liability, damages, expenses, or injury including medical expenses and/or property damage cause or sustained by said minor or third parties while engaging in or as a result of the exam process. I further agree to personally indemnify BPI, the BPI Test Center, their officers, agents, employees, volunteers, owner(s), administrators, directors, officers, trainers, and employees from and against any liability, damages, expenses, illness, or injury including medical expenses and/or property damage cause or sustained by said minor or third parties while engaging in or as a result of the exam process.

### **Waiver and Release, Assumption of Risk and Parental Consent and Indemnity Agreement**

*In consideration of my being allowed to participate in BPI exam activities, I agree:*

1. I understand the nature of BPI exam activities for the certification for which I have applied, and I am aware of my training, experience, and capabilities, and believe I am qualified to participate in such activity.
2. I further acknowledge that I am aware the activities will be conducted in facilities that may contain unsafe or potentially hazardous conditions, including but not limited to:
  - Electric and combustion appliances, including ducting, venting, wiring, and other conditions, and components which may be in unsafe condition
  - Mold, lead paint, asbestos, and other hazardous or toxic chemicals
  - Improperly installed or faulty electrical wiring
  - Structures which may be in unsafe condition

- Dangerous combustion gases, including carbon monoxide, and dangerously hot or combustible materials, which may be in unsafe condition
3. I understand that I will be required to use electrical or battery-powered equipment and tools.
  4. I understand I may be required to climb on or walk in, on, or around walls, floors, yards, attics, and cellars of buildings that may be in unsafe condition.
  5. I further agree and warrant that if I believe conditions to be unsafe, I will immediately discontinue participation in the activity.
  6. I understand the exam will be videotaped for quality assurance purposes, but may not be reviewed by the candidate, parent, or trainer.
  7. **I fully understand** that:
    - a. Exam activities involve risks and dangers of **serious bodily injury, including permanent disability, paralysis, and death** (“Risk”).
    - b. These risk and dangers may be caused by me or the actions or inactions of others participating in the activity, the condition in which the activity takes place, or the **negligence of the “releasees” named below**.
    - c. There may be other risk and social and economic losses either known to me or not readily foreseeable at this time; and **I fully accept and assume all such risks and all responsibility for losses, cost, and damages** incurred as a result of my participation in these activities.

I HEREBY RELEASE , DISCHARGE, COVENANT NOT TO SUE, AND AGREE TO INDEMNIFY AND SAVE HOLD HARMLESS BPI, THE BPI TEST CENTER, THEIR OFFICERS, AGENTS, EMPLOYEES, VOLUNTEERS, OWNER(S), ADMINISTRATORS, DIRECTORS, OFFICERS, TRAINERS, AND EMPLOYEES (EACH CONSIDERED ONE OF THE “RELEASEES” HEREIN) FROM ALL LIABILITY, CLAIMS, DEMANDS, LOSSES, OR DAMAGES ON MY ACCOUNT CAUSED OR ALLEGED TO BE CAUSED IN WHOLE OR IN PART BY CANDIDATE, BY THE NEGLIGENCE OF THE “RELEASEES” OR OTHERWISE, INCLUDING NEGLIGENT RESCUE OPERATIONS, AND FURTHER AGREE THAT IF, DESPITE THIS RELEASE, I, OR ANYONE ON MY BEHALF MAKES A CLAIM AGAINST ANY OF THE “RELEASEES” NAMED ABOVE, I WILL INDEMNIFY, SAVE AND HOLD HARMLESS EACH OF THE RELEASEES FROM ANY LITIGATION EXPENSES, ATTORNEY FEES, LOSS OF LIABILITY, DAMAGE OR COST THAT MAY INCUR AS THE RESULT OF ANY SUCH CLAIM.

**Consent and Release of Parent or Guardian**

I am the parent or guardian of the child applying to take the BPI exam for certification. My child is fit for participation in these exam activities, and I consent to my child’s participation. **I have read and understand the application and this waiver and release.** In consideration of allowing my child to participate, I consent to it and agree that **its terms shall likewise bind me, my child, my heirs, legal representative, and assignees. I hereby release and shall defend, indemnify and hold harmless the releasees from every claim and any liability** that I or my child may allege against the releasees (including reasonable attorney’s fees or cost) as a direct or indirect result of injury to me or my child because of my child’s participation in the event, **whether caused by the negligence of the releasees** or others. **I promise not to sue releasees** on my behalf or on behalf of my child regarding any claims arising from my child’s participation in any BPI exam activities.

- I agree and accept the terms and conditions of this agreement
- I do not agree (you will not be permitted to take the exams)

**\*\*\*CAUTION\*\*\***

Read above carefully before signing. This document releases all liability of the releasees, and you may wish to seek legal counsel before signing.

## Appendix G – Continuing Education Units (CEUs) for HEP Certifications

Continuing Education Units (CEUs) are an integral aspect of BPI's certifications. Continuing education permits BPI Certified Professionals to keep up with a quickly changing industry and bypass most online exams when renewing their certification(s). Continuing education improves a Certified Professional's knowledge and ability to properly diagnose a home and recommend improvements.

BPI CEU Providers are existing BPI Test Centers or outside organizations who provide relevant continuing education and submit their courses to BPI for review for BPI Continuing Education Units (CEUs). Certified candidates can search for opportunities for CEUs in their candidate account or by going to the bpi website at [http://www.bpi.org/schedules\\_candidate.aspx](http://www.bpi.org/schedules_candidate.aspx). BPI does not endorse the content, instructor or guarantee quality of the course or instruction.

As an option to bypass the online testing at the time of recertification, candidates may have collected CEUs and applied them as described in Section 15 of this document. Active CEU values apply to a candidate's certification(s) at the time of renewal. The required number of CEUs used to bypass online testing will not increase when renewing multiple certifications at the same time. Acquiring CEUs is an option for recertification and is not mandatory.

### **CEUs - Self-Attesting**

BPI Certified Professionals that are self-attesting to CEUs for certification renewal must submit proof (certificates of completion must include course name, date and organization) through the [CEU Portal](#) no less than thirty (30) days prior to the certification expiration date. CEUs submitted less than thirty (30) days prior could result in those CEUs not being applied toward a candidate's recertification. If you attended a BPI preapproved class that is not showing in your candidate account, please contact the presenter directly. Proof of attendance for BPI pre-approved courses must be submitted by the presenter. The candidate is responsible for ensuring that all CEU submissions are credited in their individual BPI candidate account as there are no extensions given.

**\*Any attempt at recertification that is unsuccessful will end the current certification**

### **Categories and Category Definitions**

All material should be considered with the following ratios (number of hours of training to number of CEUs awarded):

Training Hours to CEU Ratio	Categories of CEU Consideration	
1:1	<b>BPI Whole-house Training</b>	Every hour of training earns 1 CEU (dedicated to whole-house applications and interactions and must incorporate 70% of content from the Knowledge, Skills and Abilities in the Scheme Handbook)
2:1	<b>Specialized Software</b>	2 hours of training earns 1 CEU (e.g., trades related software training, such as audit, sizing and infiltration)

Training Hours to CEU Ratio	Categories of CEU Consideration	
2:1	<b>Non Whole-house Training</b>	2 hours of training earns 1 CEU (e.g., any non-building specific training without whole-house application, such as heating plant installation, framing, ventilation and blower door testing)
3.5:1	<b>Building Code Sessions</b>	3.5 hours of training earns 1 CEU (e.g., sessions related to building codes)
4:1	<b>Primary Certification Training</b>	4 hours of training earns 1 CEU (e.g., training designed for preparation of certification)

**BPI Whole House Training:** Must incorporate 70% of content from BPI's Testing Knowledge Lists. (e.g. exterior/interior Inspection, lighting & appliances, combustion safety, blower door, moisture, air flow, insulation & R value, thermo dynamics-heat transfer, conduction, convection, radiation)

**Specialized Software:** Training related to software modeling, work scope development, audit, sizing and infiltration.

**Non Whole House Training:** Any non-building specific training without whole-house application such as heating, plant installation, framing, ventilation, blower door testing, etc.

**Building Code Sessions:** Sessions related to building codes.

**Primary Certification Training:** Training designed in preparation for BPI certification.

### Activities and Activity Definitions

Activity	CEU Hours Max	Proof
Technical Conferences	20 CEUs per certification cycle	Proof of attendance/ Certificate of Completion
Classroom Trainings	Unlimited	Proof of attendance/ Certificate of Completion
Webinars	10 CEUs per certification cycle	Certificate of Completion, email from presenter (included must be course name, date, organization, and length)
As Trainer	15 CEUs per certification cycle	Proof from Employer/Self Employed see below

Activity	CEU Hours Max	Proof
Participation on BPI Committees (i.e., Certification Scheme Committee(s), Subject Matter Experts, Standards Technical Committee, Working Groups)	6 CEUs per certification cycle	Committee roster and active participation in meetings (e.g., voting, attendance records)
Reading Articles	10 CEUs per certification cycle	Certificate of completion including proof of successful quiz. Quiz developed by article publisher and on the article content
Author of Related Published Book	10 CEUs per book with maximum of 20 CEUs per certification cycle	Date, Title and link to published book
Write a Related Educational Article	2 CEUs per article / 10 CEUs per certification cycle	Date, Title and link to article
Presentation of Pre-Reviewed Material	10 CEUs per certification cycle	Details about the course, BPI Approval and times
Online Training	Unlimited	Certificate of completion including proof of a successful quiz. Quiz developed by presenter on course content
<b>*Certification cycle is the time between the date a certification was awarded and the expiration date.</b>		

**Technical Conference:** Specific training sessions at technical conferences that align with BPI Standards and knowledge, skills and abilities (section 8 of this document) will be granted CEU credit(s). Candidates cannot get credit for attending a conference without proof of participation in training sessions.

**Classroom Trainings:** BPI considers classroom trainings to be educational sessions in which the instructor is conducting a program that aligns with BPI Standards and knowledge, skills and abilities (section 8 of this document) in real time; the instructor and students are engaged in the educational program at the same time.

**Webinars:** BPI defines webinars as those in which the instructor and student are separated by location but the instructor is conducting the program which aligns with BPI Standards and Testing Knowledge Lists in real time.

**Trainer:** Credits can be received by an individual who is instructing/teaching any training course that aligns with the BPI Standards and Testing Knowledge Lists.

**Participation on BPI Committees:** Candidate who participates on a BPI committee can receive CEU credit.

**Reading Articles:** Credit will be allowed for Certified Professionals reading any published article(s) that align with BPI Standards and Testing Knowledge Lists and passes a corresponding quiz related to the content of the article. These articles are usually pre-approved.

**Author of Related Published Book:** Credit may be allowed for authorship of published books related to BPI Standards and Testing Knowledge Lists.

**Write a Related Educational Article:** Credit may be allowed for authorship of published articles related to BPI Standards and Testing Knowledge Lists.

**Presentation of Pre-reviewed Material:** BPI considers live presentations to be educational sessions in which the instructor is conducting the program in real time. All material needs to be reviewed and approved prior to presentation.

**Online Sessions:** BPI considers online sessions to be educational sessions that align with BPI Standards and Testing Knowledge Lists that can be accessed at any time and where there is no live instructor. Candidates must pass a corresponding quiz related to the content of the course created by the presenter.

### **Limitation of Repeat Courses**

CEUs will be awarded for activities that Certified Professionals participate in that are the same; however, a candidate will not earn CEUs for the same class taken more than two (2) times within a certification cycle.

### **Quality Assurance**

Any CEUs that are submitted must align with the Knowledge Skills and Abilities listed in the Functions and Tasks (section 8) section of this document. BPI will perform random audits on continuing education units/credits submitted by candidates. This is to ensure CEU Quality Assurance. At its discretion, BPI reserves the right to change the status, revoke or withdraw any certification or CEU submitted based on any form of non-compliance found during a routine audit. Upon a quality assurance audit, CEUs submitted could have a status change (from approved to not approved, etc.) or the number of credits could be changed which could affect recertification. Candidates are responsible for checking their candidate account to make sure they have enough CEU credits.

### **Contact Information**

Questions regarding CEUs can be addressed via email [CEUs@bpi.org](mailto:CEUs@bpi.org) or call 1-877-274-1274 ext. 292.

## Terms and Definitions

**Appeal** – Request by applicant, candidate or Certified Professional for reconsideration of any adverse decision made by the certification body related to her/his desired certification status.

**BPI National Standards** – The set of technical protocols and procedures that have been developed through an open, transparent, consensus based process and are intended to achieve a high quality of residential building performance. BPI is approved by the American National Standards Institute, Inc. (ANSI) as an accredited developer of American National Standards.

**Candidate** – Applicant who has fulfilled specified prerequisites, allowing his/her participation in the certification process.

**Certified Professional** – An individual who successfully passes the BPI online and field exam requirements for certification.

**Certification Process** – All activities by which a certification body establishes that a person fulfills specified competence requirements, including application, evaluation, decision on certification, surveillance and recertification, use of certificates and logos/marks.

**Certification Scheme** – Specific certification requirements related to specified categories of persons to which the same particular standards and rules, and the same procedures apply.

**Certification System** – Set of procedures and resources for carrying out the certification process as per a certification scheme, leading to the issue of a certificate of competence, including maintenance.

**Competence** – Demonstrated ability to apply knowledge and/or skills and, where relevant, demonstrated personal attributes, as defined in the certification scheme.

**Complaint** – Conformity assessment request, by any organization or individual to a certification body, for corrective action relating to the activities of that body or to those of any of its customers.

**Continuing Education Units (CEUs)** – Coursework, seminars and educational activities (training and writing) pertaining to building science that can be used to further an individual's knowledge, skills and understanding of whole-house building science. Continuing Education Units (CEUs) can be applied toward recertification of earned BPI certifications.

**Evaluation** – Process that assesses a person's fulfillment of the requirements of the scheme, leading to a decision on certification.

**Exam** – Mechanism that is part of the evaluation, which measures a candidate's competence by one or more means such as online, oral, practical and observational.

**Essential Learnings** – Comprehensive list of Retrofit Installer Technician functions and tasks as determined by a job task analysis.

**Proctor** – Person with relevant technical and personal qualifications, competent to conduct and/or score an exam; an individual approved to administer BPI certification exams.

**Qualification** – Demonstration of personal attributes, education, training and/or work experience.

**Quality Assurance** – The observation techniques and activities used externally by an organization to evaluate the effectiveness of their quality management system and to provide feedback that may result in quality improvements.

**Recertification** – Process of confirming conformity with current certification requirements.

**Scheme Committee** – Group of people chosen by the certification body to provide input, recommendations, guidance and review of a certification scheme.

**Surveillance** – Periodic monitoring during the period of certification of a Certified Professional's performance to ensure continued compliance with the certification scheme

**Test Center** – An organization with a legal agreement between itself and BPI; authorized to give BPI certification exams.
