

Energy Efficiency Trainer

The New York State Weatherization Directors Association (NYSWDA) is seeking a dynamic and knowledgeable full-time Energy Efficiency Trainer to provide training in a lab/classroom setting at its Energy Efficiency Training Center in East Syracuse, NY. This is an excellent opportunity for you to take the next step in your professional career, while also positively affecting the Building Science Industry in New York State.

What you can expect:

- Regular work hours M-F, no nights, weekends, or on-call
- Vehicle and equipment provided for occasional regional training
- Salary is based on experience
- A great team-oriented work environment

Benefits include:

- Health insurance
- Accrued sick and vacation
- 13 paid holidays
- Cafeteria benefit plan

Qualifications:

- Candidates must possess a broad and varied background in residential and/or commercial construction, or experience in building science and/or HVAC
- Must have a valid drivers license
- Building Performance Institute (BPI) certifications a plus
- Training experience also a plus, but not required
- NYSWDA will provide the necessary support

NYSWDA is an award-winning, nonprofit membership organization, and well respected for the adult learning it provides to professionals in the home

performance and HVAC fields. We are looking to hire motivated individuals who enjoy working on a team in a fast-paced training facility while making a difference in the communities across New York State and beyond. Interested parties may forward their resume to the attention of Joe Maggiore
