

Home Energy Auditor

Technical Services · New Haven, Connecticut (Remote)

CET is looking for a skilled and knowledgeable person to join our team as a Home Energy Auditor! You will work with previously under-served communities in primarily in southwestern Connecticut to identify energy efficiency and electrification opportunities for their homes in accordance with the Connecticut Weatherization Assistance program. This position works in-person to perform energy audits of homes and requires that you are within 30-minute driving distance of the Bridgeport area of Connecticut.

As a Home Energy Auditor, you will be responsible for performing diagnostic tests, recommending weatherization opportunities, and explaining program offerings and incentives. If you have experience working on income eligible programs, please apply!

For nearly 50 years, **CET** has helped people and businesses save energy and reduce waste. We partner with city and state agencies, utilities, homeowners, and business owners across the U.S. to build a just and equitable transition to the low-carbon economy.

Benefits

CET offers excellent benefits including vacation, holiday, and personal/sick time; medical, dental, and vision insurance; life insurance; disability insurance; and a retirement plan with a company match. This is a full-time salaried, exempt, remote position with 8-hour shifts Monday through Friday.

Vehicle Stipend: You use your own vehicle, and CET provides a monthly stipend of \$750

Mileage Reimbursement: CET pays mileage at the prevailing IRS mileage rate.

Home Office Stipend: CET provides a monthly \$85 stipend for your home internet and/or phone expenses.

This exciting role provides opportunity for career growth in the field of energy efficiency. You're a great fit if you can:

- Conduct energy audits of existing homes, including combustion safety tests and other diagnostic tests, and analyze data.
- Using software, quantify savings and produce reports documenting recommendations, including building electrification opportunities.
- Learn and perform a variety of diagnostic tests.
- Provide excellent customer service during and after the audit. In particular: listening to customers to understand their needs and motivations; clearly and intelligently answering customer questions as relate to energy efficiency and electrification; effectively communicating recommended energy saving measures; following up with customers as needed.
- Ensure that recommendations comply with program requirements for incentives and rebates.
- Accurately enter audit data into appropriate databases and complete documentation and reports in a timely manner.

This exciting role makes a difference in people's lives and helps the environment. For this opportunity, you will have:

- 2+ years of experience working in energy efficiency.
- BPI Building Analyst or BPI HEP Energy Auditor certification preferred.
- Experience working in a state Weatherization Assistance Program.
- Good math skills with solid understanding of geometry.
- Strong written and verbal communication skills.
- Familiarity with various utility program offerings and analyze usage patterns.
- Enthusiasm for the non-profit community mission of CET.
- Experience with Salesforce, Microsoft Office and Handcock or Neat modeling software preferred.
- Ability to work independently and spend the majority of time in the field, while also collaborating with CET's Technical and Operations teams.
- A valid drivers license, a good driving record, access to a reliable, insured vehicle large enough to hold a blower door and other equipment, and ability to drive extensively throughout the region.
- Ability to pass a drug test and background check.

A little more about us

For all of our work, we bring together a diverse team of environmental specialists, building scientists, engineers, sales, operations, and communications specialists to implement cost-effective and lasting solutions. We're a hands-on, action-oriented organization—everyday someone on our team is:

- Conducting residential and commercial energy audits and advising building owners on efficiency and electrification opportunities;
- Keeping used building materials out of the landfill;
- Helping businesses implement wasted food diversion programs;
- Working with a municipal electric utility to build innovative financing and incentive programs to accelerate electrification;
- Designing outreach materials that help make green make sense for our target audience.

We are committed to racial justice and inclusion and we are looking for someone who can contribute to the diversity to the CET team by bringing their insights and life experience to support our work in historically underserved communities and our success mitigating climate change. Bilingual English-Spanish candidates are strongly encouraged to apply. Your role is:

- Participate in required and elective training and development opportunities.
- Use cultural competency in your interactions with customers and coworkers to foster inclusion and support diverse identities.

The need to tackle climate change and build a just and equitable transition to the low-carbon economy is more urgent than ever. With passage of state and federal climate policy, utility programs are rapidly evolving to align with carbon reduction goals, and auditors are critical catalysts in getting energy measures implemented. This is an exciting time to work as an auditor!

CET is able to hire people who reside in these states: AR, CO, CT, DE, FL, GA, MA, NJ, MN, MT, NC, NH, NY, RI, SC, VT. If you do not live in one of these states, we will not be able to consider your application.

CET is an equal opportunity employer and provider. We strive for a welcoming and inclusive environment. Diverse applicants are encouraged to apply. You may include military service assignments and any verified work performed on a volunteer basis.
