

Elysian Energy is seeking a Residential Energy Project Specialist to analyze data from Home Performance with Energy Star audits and create proposals for energy efficiency improvements. The ideal candidate has 3-5 years of Energy Audit experience and is looking to transition from field work to data analysis, training, and customer solution development.

Hybrid – Laurel office, work from home, with occasional field work in Baltimore City, Montgomery, Prince George’s, Howard, Anne Arundel, and Baltimore Counties, and Washington DC. Reports to the Audit Program Manager.

Key Responsibilities

- Perform data modeling for energy audits using industry-standard software
- Create audit reports, HVAC and electrical load calculations
- Develop practical scopes of work within program parameters and for larger scale projects
- Communicate audit findings and recommendations to homeowners clearly and effectively
- Research emerging technologies for residential energy efficiency and electrification/decarbonization projects
- Coordinate with subcontractors and internal contracting staff on multi-phased projects
- Provide training and support to auditors as needed
- Perform related administrative tasks using computers and mobile technology

Requirements

- Building Performance Institute Building Analyst Certification (BPI BA) or BPI HEP Energy Auditor Certification
- 3+ years of energy auditing experience (preferred)
- Valid driver’s license with clean driving record
- Reliable access to an insured vehicle
- Ability to pass background and reference checks

Preferred Qualifications

- Bachelor’s or technical degree
- Strong written and verbal communication skills
- Familiarity with residential construction, skilled trades, and/or building science
- Experience with Beacon, Wrightsoft, or other modeling software
- Experience working in Salesforce
- BPI QCI Certification

- Ability to understand, apply, and communicate technical concepts
- Customer service and sales experience

We Offer

- Comprehensive training program
- Professional development and leadership training
- Health insurance (including dental and vision)
- Retirement package
- Tuition reimbursement
- Paid fun day and volunteer days
- Travel expenses stipend

The ideal candidate is energetic, personable, and self-motivated with a demonstrated passion for buildings and sustainability. Salary is commensurate with experience. Benefits included after a 90-day probationary period.

Elysian Energy is an equal opportunity employer. To apply, please send your resume and cover letter to our Audit Program Manager, Megan Murray, at careers@elysianenergy.com.
